Re: PowerConneX New Albany Energy Center Second Public Informational Meeting Notice for Proposed Natural Gas Fired Electric Generating Facility in New Albany, Licking County, Ohio

Dear _____:

We are contacting you to invite you and your family to the upcoming second public information meeting for the PowerConneX New Albany Energy Center project. The second public information meeting will consist of a traditional in-person open-house poster board session to ensure that everyone has an opportunity to learn about the project and that we have an opportunity to engage with the community regarding our planned electric generation facility. The purpose of this meeting is to present the project to the public in a manner consistent with what will be presented in the application that will be eventually submitted to the Ohio Power Siting Board. For these reasons, we are inviting you and your family to attend the public information meeting on March 26, 2025. Details for the meeting are briefly outlined below and further details are provided in the attached public notice.

The PowerConneX New Albany Energy Center project (Project) is a natural gas fired electric generation facility being proposed by PowerConneX, Inc. to be located in New Albany, Licking County, Ohio. High Street, New Albany, Ohio 43054, in order to provide the public with an opportunity to become informed about the Project and ask questions. Information addressing the facility will be made available through an open house, posterboard session format. Attendees may arrive anytime between 5 p.m. to 7 p.m. to engage with Company representatives on hand to answer questions and solicit comments regarding the facility.
